Industry Problems

Outdated Rental Platforms

Global practices still include listings in the form of simple online classified ads which provide limited rental experience and essentially no value in terms of the application process and day-to-day rental management.

\$87B Frozen in Rental Deposits

Tenants freeze billions of dollars on rental deposits every time they rent. There is no internationally recognized insurance or savings that could be applied to quality renters.

Our Solution

Rentberry streamlines the entire long-term rental process using patented technology and eliminates the need for a middleman making it possible for tenants and landlords to complete all rental tasks in one place.

New Concept - "Flexible Living"

COVID-19 will have a lasting impact on the work environment - allowing a large number of Millennials to work from home, thus giving them the freedom to travel and work from various locations.

In 2021, Rentberry plans to develop a new type of mid-term residential rental market - "Flexible Living". The goal is to offer tenants flexibility in renting properties without security deposits and long-term lease commitments. As part of this plan, the Company intends to acquire properties throughout the United States, Europe and Asia to serve as mid-term rental properties (rent duration from three months to one year) and lease them exclusively on the Rentberry platform.

-  Mid-term rentals (3-12 months)
-  Fully furnished
-  No security deposits
